Homes are proud to

Announce the introduction of
NEW GREENER HOMES & LIVING

“Because Building Greener is Building Better”

Green Homes are designed to provide homeowners with comfortable, durable, environmentally friendly homes that are cost-effective to own & operate. These Resource-Efficient Homes are crafted to exceed building codes & provide homeowners with years of healthy, quality living while protecting the precious environment.

DID YOU KNOW?

THAT A HOME BUILT TODAY IS:

**30% MORE EFFICIENT THAN A HOME BUILT-IN 1999
(10YRS AGO)**

&

**15% MORE EFFICIENT THAN A HOME BUILT IN 2008
(2 YRS. AGO)**

IF THAT'S NOT MOTIVATION TO BUY NEW?

In an effort to keep home ownership affordable in this changing world economy with skyrocketing energy cost & increasing consumer demand for energy performance are the driving forces behind the development of our **building greener**.

Therefore, we have adopted **New Greener Features** to build, an affordable, quality home, which is not only Stylish but also High performing, Healthy, & Efficient, saving you cash by conserving both energy & water.

Which provides you with a **Greener built home** & overall lower cost to operate.

Here's How We Do It

ALL ITEMS STANDARD IN ALL 3 LEVELS OF
FEATURES

OUR (QUALITY/CLASSIC/LUXURY) STANDARD FEATURES

-  Energy Star LOW-E Double pane windows & Sliding glass doors (to deflect UV Rays from the Sun, lowering heat loads, significantly improving home performance, & reduces fabric & floor coverings from fading)
-  15SEER A/c High Efficiency System (requiring less energy to provide the same comfort) with a programmable Thermostat (this thermostat can save you up to \$150/yr)
- Silver Shield Radiant Barrier installed in the Attic will reduce the Attic Temp an Average of 30 Degrees (allowing you're A/C to work less & perform more efficiently)
-  Energy Star Rated Appliances, Dishwashers (41% more Energy Efficient than minimum government Standard) & Refrigerator (20% more energy efficient than non energy star rated)
-  Low Flow Toilets (reducing water usage by 33%)
-  Water Sense Low Flow Bath Faucets (reducing water usage by 33%)
-  Low Flow Showerheads
- Sprinklers Systems equipped with rain sensors

And in the interest of providing our clients with Healthier Homes we also now include:

-  Low VOC Interior Paints to reduce odors & emissions for better Air Quality
-  Low VOC Carpets to reduce odors & emissions for better Air Quality
- MERV-8 Media Air Filter to provide Better Indoor Air Quality by trapping 10x more particles than a standard filter

Or YOU CAN SIT DOWN WITH THE BUILDER & DECIDE WHAT SHADE OF GREEN YOU WANT YOUR NEW HOME TO BE.

RICHARD VAN ORDEN IS A NATIONALLY RECOGNIZED CERTIFIED GREEN PROFESSIONAL, ONE OF THE FIRST RESIDENTIAL BUILDERS TO BE ACCREDITED BY THE NATIONAL ASSOCIATION OF HOME BUILDERS, IN THE HERNANDO/CITRUS COUNTY AREA, OF THE NATURE COAST.

There's no better time to buy with New Construction never having been priced more competitively. Even if the New Construction is a few thousand dollars more than the comparable resale, its money well spent. You will recoup it on the short term, from that 30% savings (in energy efficiency) in your operating cost, over a few short months that could add up to 1000's of dollars, and that savings will continue for years to come.

**Distinctive
Eco-Friendly
Designs!**

Plus More Money in Your Pocket!

That gives you a more comfortable home, which will cost less to operate, last longer, & keep its occupants healthy, & reduce their impact.

Again we are proud to bring to you, [Our Collection of Homes](#), Now with High Performance, Healthy & Efficient Green Living.

We Believe at *Richard Van Orden Distinctive Homes* that:

**BUILDING GREENER IS
BUILDING BETTER**
